DISTRIBUTION OF RAILWAY COMPONENTS

ABOUT VAGOTEQ GmbH

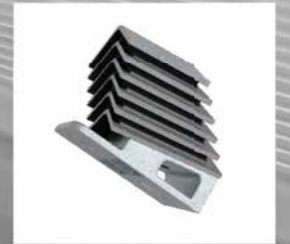

Vagoteq GmbH – leading trading company in railway sector.

Distribution:

- Rubber-metal parts
- Hydraulic shock absorbers
- Sensors & Encoders
- Plywood
- Floor covering

RUBBER-METAL PARTS

RUBBER-METAL PARTS

Primary and secondary suspension systems

Traction rods / Buffers / Spherical bearings / Bushings / Rubber components for wheels / etc.

Window / floor / ceiling / wall rubber components

RUBBER-METAL SPARE PARTS

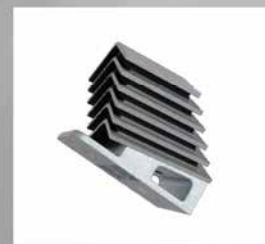

Secondary air
spring system

Primary conical
spring

Traction rod /
Torque support

Axle spring

Primary spring
system

Roller spring
rubber

Wheel set spring

Wedge package

Spherical
bearing / Bush

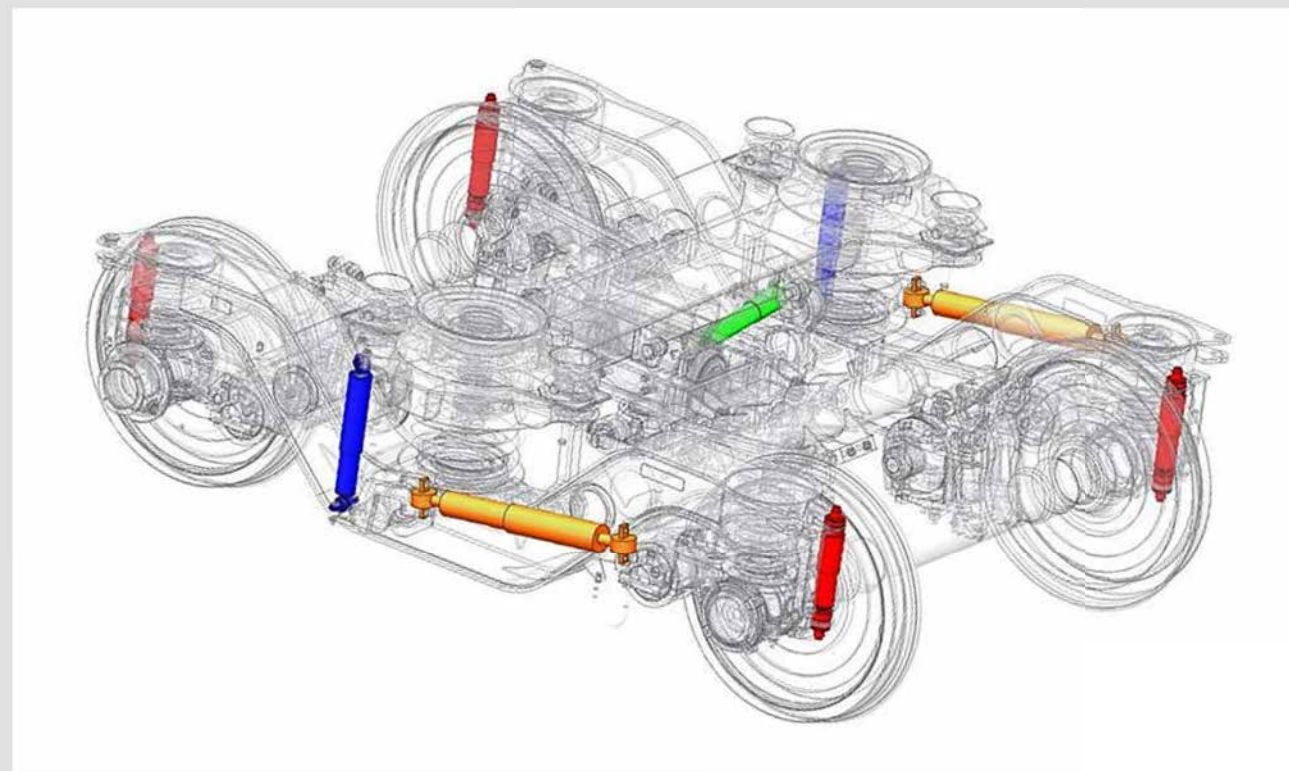

Wheel

Buffer

RAILWAY SHOCK ABSORBERS

SHOCK ABSORBERS SPARE PARTS

A wide range of hydraulic dampers and rubber-metal bushings for dampers for all types of rolling stock. Long operating life.

SENSORS, ENCODERS & CONTROLLERS

- Sensors for traction control
- Speed sensors
- Sensors for bogie monitoring
- Wheel slide protection sensors
- Independent electronic odometer

PLYWOOD & FLOOR COVERING

Plywood made of renewable, lightweight, sustainable and high-quality birch:

Highest fire resistance properties, fulfills all requirements of EN 45545- 2

Highest fire resistance properties, fulfills all requirements of EN 45545-2

Danger level R10 HL3

Moisture resistant, smooth and durable surface

PLYWOOD & FLOOR COVERING

Floor covering made of high quality industrial and natural rubber qualities, natural materials and environmentally compatible color pigments:

Fire-retardant according to EN 13 501

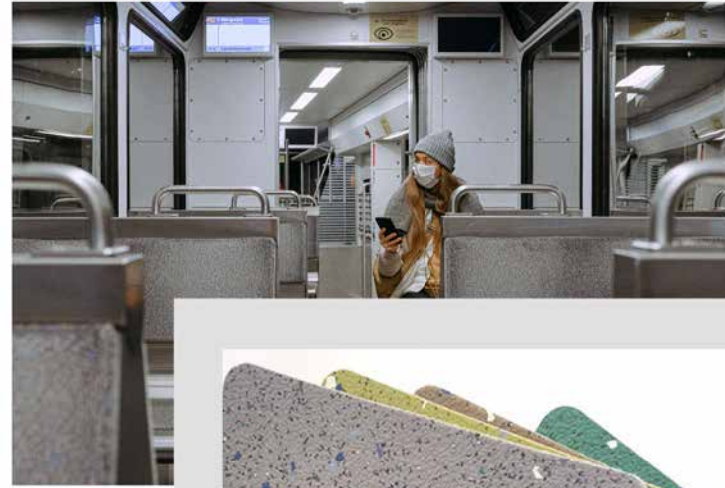

Good for heavy usage

High footfall sound absorption (6-8 dB)

R9-and R10-slip resistance

Jointless installation, no coatings needed

Free of PVC, phthalate plasticizers and halogens
